NEW **i-FORCE**
ELECTRONIC PRUNER

MORE POWER, MORE TECHNOLOGY FOR PRUNING LIKE YOU'VE NEVER SEEN BEFORE!

VOLPI SPA presents the **NEW I-FORCE**, concentrated power and advanced technology like you've never seen before, together in one electronic pruner.

The **NEW I-FORCE** is for the demanding, professional public in search of a work companion offering the best performance in the category, reliability and safety.

MORE POWER

A good 820 Watts of overall power available to you (over 100 more than the previous model). The new blades are manufactured in special steel with a particular heat treatment and use innovative geometry to adapt to any type of application, overall giving a wider diameter cut, which was inconceivable up to now, and also working on the most resistant wood.

MORE TECHNOLOGY

The new 48 V rechargeable lithium batteries ensure two full days of autonomy. Fully upgraded software and hardware guarantees reliability and safety, in every cutting condition. The new power cable is more performing, with high strength connections and bend-proof sheathing. Furthermore, an exclusive "electronic save" system guarantees no part of the pruner is damaged if the cable is accidentally cut.

MORE CONVENIENT

The advanced control unit with its exclusive, lighting digital display is now positioned on the belt to enable easy use and convenient reading of information during use. The very light battery and electronic unit was designed as a convenient backpack in knock-proof and rain-proof plastic, sealed to avoid any contact with outside. The shear grip is ergonomic and soft-touch and, when not in use, the pruner can be conveniently placed inside its new, high strength, noble leather case.

MORE ECOLOGICAL

Respect for the environment has always been a priority within the design and production philosophy of VOLPI Spa. The type of rechargeable batteries used, no fuel used, zero emissions, the absence of vibrations and noise make the **NEW I-FORCE** not only state of the art in technological terms, but also ecologically.

2 FULL DAYS OF WORKING AUTONOMY

TECHNICAL FEATURES

- 820 WATT MAXIMUM POWER SUPPLY
- MAX 2 DAYS OF WORKING AUTONOMY
- SHEAR WEIGHT 890 G
- COMPLETE BACKPACK WEIGHT 2.2 KG
- MAX CUTTING DIAMETER 40MM
- DOUBLE OPENING AND PROGRESSIVE CUTTING CAN BE DISABLED
- 48V RECHARGEABLE LITHIUM BATTERY
- MINIMUM CUTTING TIME 0.28 S
- QUICK, REPETITIVE CUT
- BLADE OPENING 33%, 50%, 66%, 100%
- QUICK SWITCH OFF FUNCTION

STUDIED & DESIGNED WITH UNIQUE FEATURES

Light and fast to use, powerful and precise cutting, reliable and safe over time.
This is the **NEW I-FORCE**. A pruner designed to satisfy the most demanding professionals, concentrating technology and simple use for an incredible performance, making it an inseparable work companion.

I-FORCE

DETAILS

- 1 DISPLAY AND PROGRAMMING UNIT FASTENED ON BELT
- 2 LEATHER CASE
- 3 GRAPHIC DISPLAY TO PROVIDE INFORMATION AND PROGRAMMING
- 4 MACHINE START-UP AND CABLE CONNECTION
- 5 BLADE OPENING ADJUSTABLE IN 4 POSITIONS AND CAN BE DISABLED
- 6 PROGRESSIVE CUT CAN BE DISABLED
- 7 SIMPLE AND FAST BLADE REPLACEMENT
- 8 CONVENIENT, ERGONOMIC BACKPACK WITH RECHARGEABLE, LATEST GENERATION LITHIUM BATTERY

CABLE PASSAGE ON SHOULDER
