

TECHNICAL DATASHEET
MICRONIZER “JOLLY”
COD. M10V

The micronizer M10V has been designed for spraying herbicides at low water volume

Power Supply	STD: 3V DC (2x1.5V alkaline battery)
Battery Autonomy	40 hours (alkaline battery)
Working range	120/150 cm
Droplet size	250/300 micron
Product Feeding Technology	Gravity feed
Tank material	Polyethylene
Tank Capacity	10 Lt
Tank inlet opening	100 mm
Aluminium arm length	100 cm
Net weight with/without tank	1.65/0.9 Kg
Packaging sizes	107x16x33 cm

Nozzle	Ø [mm]	Flow Rate	LT/Ha
Yellow	Ø 1,0	108 cc/min	15

COMPANY WITH QUALITY SYSTEM
MANAGEMENT CERTIFIED BY ICIM
= ISO 9001 =

Data are referred to the following conditions:

- Average walking speed: 3.6 Km/h.
- Standard herbicide/water solution at 20°C

Sizes and measures:

- 1 Lt = 1000 cc
- 1 Ha (hectare) = 10000 square meters

CLEANING: after every use remove the tank of the chemical product, replace it with the one for cleaning, previously filled with water and turn on the micronizer for few minutes, this will avoid damages and will ensure long and lasting performances.

IMPORTANT: CAREFULLY FOLLOW THE INDICATIONS FOR USE REPORTED INTO THE USER'S MANUAL.
