

TECHNICAL DATASHEET

MICRONIZER

COD. M2000

The micronizer M2000 has been designed for spraying pure herbicides

Power Supply	3V DC (2x1.5V alkaline battery)
Battery Autonomy	~ 40 hours
Working range	Ø 120 cm
Droplet size	250 micron
Product Feeding Technology	Gravity feed
Tank material	Polyethylene
Herbicide Tank Capacity	1 Lt
Cleaning Tank Capacity (water)	1 Lt
Tank inlet opening	60 mm
Alluminium arm Length	100cm
Net weight	0,85 Kg
Packaging sizes	86x26x14 cm

Nozzle	Ø [mm]	Flow Rate	LT/Ha
Red 1-tooth	Ø 1,2	25 cc/min	4.5
Red 2-teeth	Ø 1,4	40 cc/min	7

Data are referring to the following conditions:

- Average walking speed: 3 Km/h.
- Pure herbicide, standard density at 20°C.
