

TECHNICAL DATASHEET

MICRONIZER

COD. M3000

The micronizer M3000 has been designed for spraying pure herbicides.

Power Supply	3V DC (2x1.5V alkaline battery)
Battery Autonomy	40 hours
Hood diameter	35 cm
Working range	35 cm
Droplet size	250 micron
Product Feeding Technology	Gravity feed
Tank material	Polyethylene
Herbicide Tank Capacity	1 Lt
Cleaning Tank Capacity (water)	0.8 Lt
Tank inlet opening	60 mm
Aluminium arm Length	55 cm
Net weight	1 Kg
Packaging sizes	94x12x37 cm

COMPANY WITH QUALITY SYSTEM
MANAGEMENT CERTIFIED BY ICIM
= ISO 9001 =

Nozzle	Ø [mm]
ORANGE	Ø 1,0
GREEN	Ø 0,8

Data are referring to the following conditions:

- Average walking speed: 3 Km/h.
- Pure herbicide, standar density at 20°C.

Sizes and measures:

- 1 Lt = 1000 cc
- 1 Ha (hectare) = 10000 square meters

CLEANING: after every use remove the tank of the chemical product, replace it with the one for cleaning, previously filled with water and turn on the micronizer for few minutes, this will avoid damages and will ensure long and lasting performances.

IMPORTANT: CAREFULLY FOLLOW THE INDICATIONS FOR USE REPORTED INTO THE USER'S MANUAL.
