

TECHNICAL DATASHEET
GIULIVO PLUS
COD. 705L- 705XL

GIULIVO PLUS is an olive shaker designed to meet the needs of farmers and hobbyists who are looking for a high productivity machine for medium and small plots.

It works with a common 12 volt automotive-type battery and comes with its power supply and 20mt cable (battery excluded).

GIULIVO PLUS is available in two versions: with L extension pole, from 2100 to 3000 mm or with XL extension: from 2400 to 3600 mm.

GIULIVO PLUS has an on/off switch positioned directly on the machine handle to facilitate the user.

It easily collects any variety of olive thanks to its 6 carbon tines with a productivity of 80/100 kg/ hour.
